

# What do we offer?

A PRIVATE & SECURE VIRTUAL ONLINE PRESENCE FROM ANYWHERE GLOBALLY

Downloaded by millions of people and businesses worldwide and used by IT and Fortune 500 Companies, OpenVPN is the provider of next-gen secure and scalable communication services. Our award-winning open source VPN protocol is the de-facto standard for accessing private information securely. That's the legacy of our software. That's what Private Tunnel is built on.

## MISSION STATEMENT

*We believe all people should have unfiltered access to the internet. Stopping or prohibiting someone from having the ability to surf the net is a human rights violation. In an ideal world, everyone will be able to access information on the web. This will strengthen our society, and provide people with equal opportunities.*

*Our mission is to connect your world securely by providing a more safe and secure experience online.*

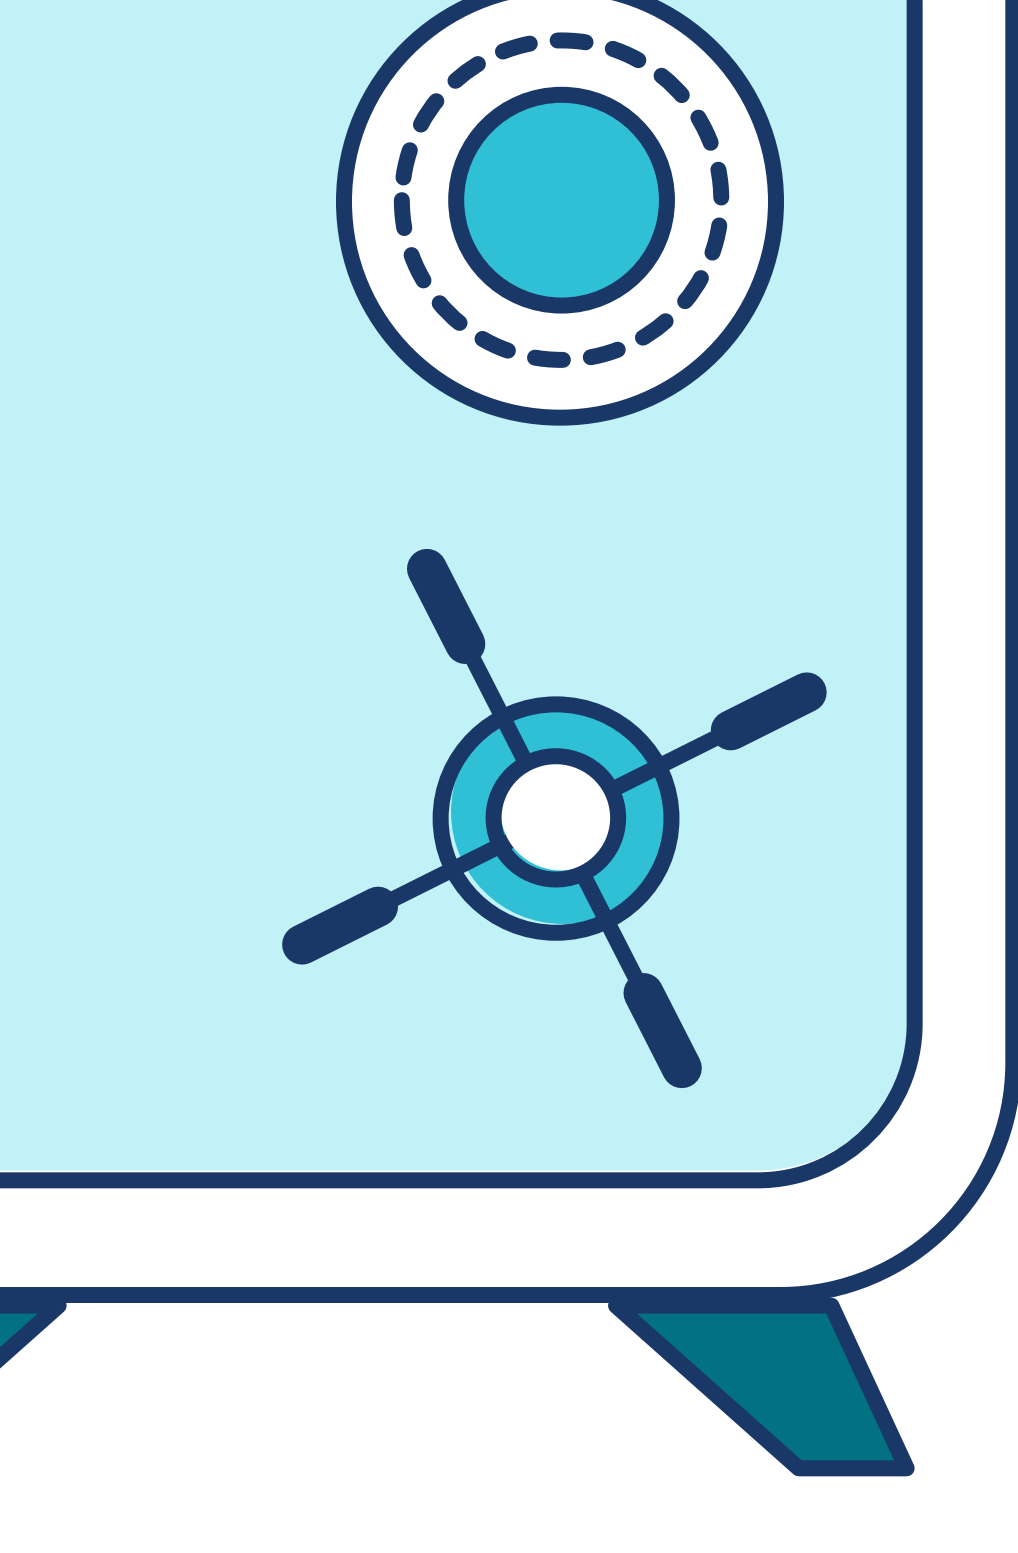

# Better than the competition

OUR TECHNOLOGY IS BUILT ON OUR NEXT GENERATION OPENVPN FUNCTIONALITY THAT NO ONE ELSE ON THE MARKET CAN HARNESS.

-  PREVENTS **540 MILLION** CYBER ATTACKS PER YEAR
-  PREVENTS **45 MILLION** CYBER ATTACKS PER MONTH
-  PREVENTS **1.5 MILLION** CYBER ATTACKS PER DAY

 **FASTER THAN THE COMPETITION**

# Available on any device

DOWNLOAD ON ALL YOUR DEVICES THROUGH USING THE PRIVATE TUNNEL APP FROM ITUNES AND GOOGLE PLAY.

**NOW, YOU'RE COVERED.**

# What are the key features?

FAST AND SECURE VPN SERVICE

-  **AES ENCRYPTION**  
The worldwide standard in encryption is AES. The block size makes it virtually uncrackable, making it less open to cyber attacks than other ciphers. AES is the leading encryption algorithm.
-  **HOT SPOT PROTECTION**  
Did you know you don't control the hot spot you're connected to when surfing the web at your favorite coffee shop? Our software makes sure your traffic is encrypted no matter who operates that public wi-fi.
-  **24/7 SUPPORT**  
Private Tunnel offers 24/7 email support, LIVE web chat support and ticketing support. You can also email support@privatetunnel.com - they're always here for you
-  **OPENVPN CORE**  
Private Tunnel is built and developed by OpenVPN, the de-facto standard in the open source networking space with over 50 million downloads since inception

PROTECTING YOU FROM MALICIOUS ONLINE THREATS

-  **BLOCK ONLINE THREATS**  
Block known threats that could compromise your internet experience while surfing. Protect yourself against malware and DDoS attacks.
-  **SHIELD YOUR DEVICES**  
Whatever you're using your device for, Private Tunnel will filter and block attacks that could destroy or slow down your connection to the world wide web.
-  **STOP HACKERS**  
If your computer is already infected with malware, Private Tunnel will block communication to the hacker's server.
-  **PROTECT PERSONAL INFORMATION**  
Keep your private information on your device away from the eyes of online criminals.

YOU DECIDE YOUR ONLINE LOCATION

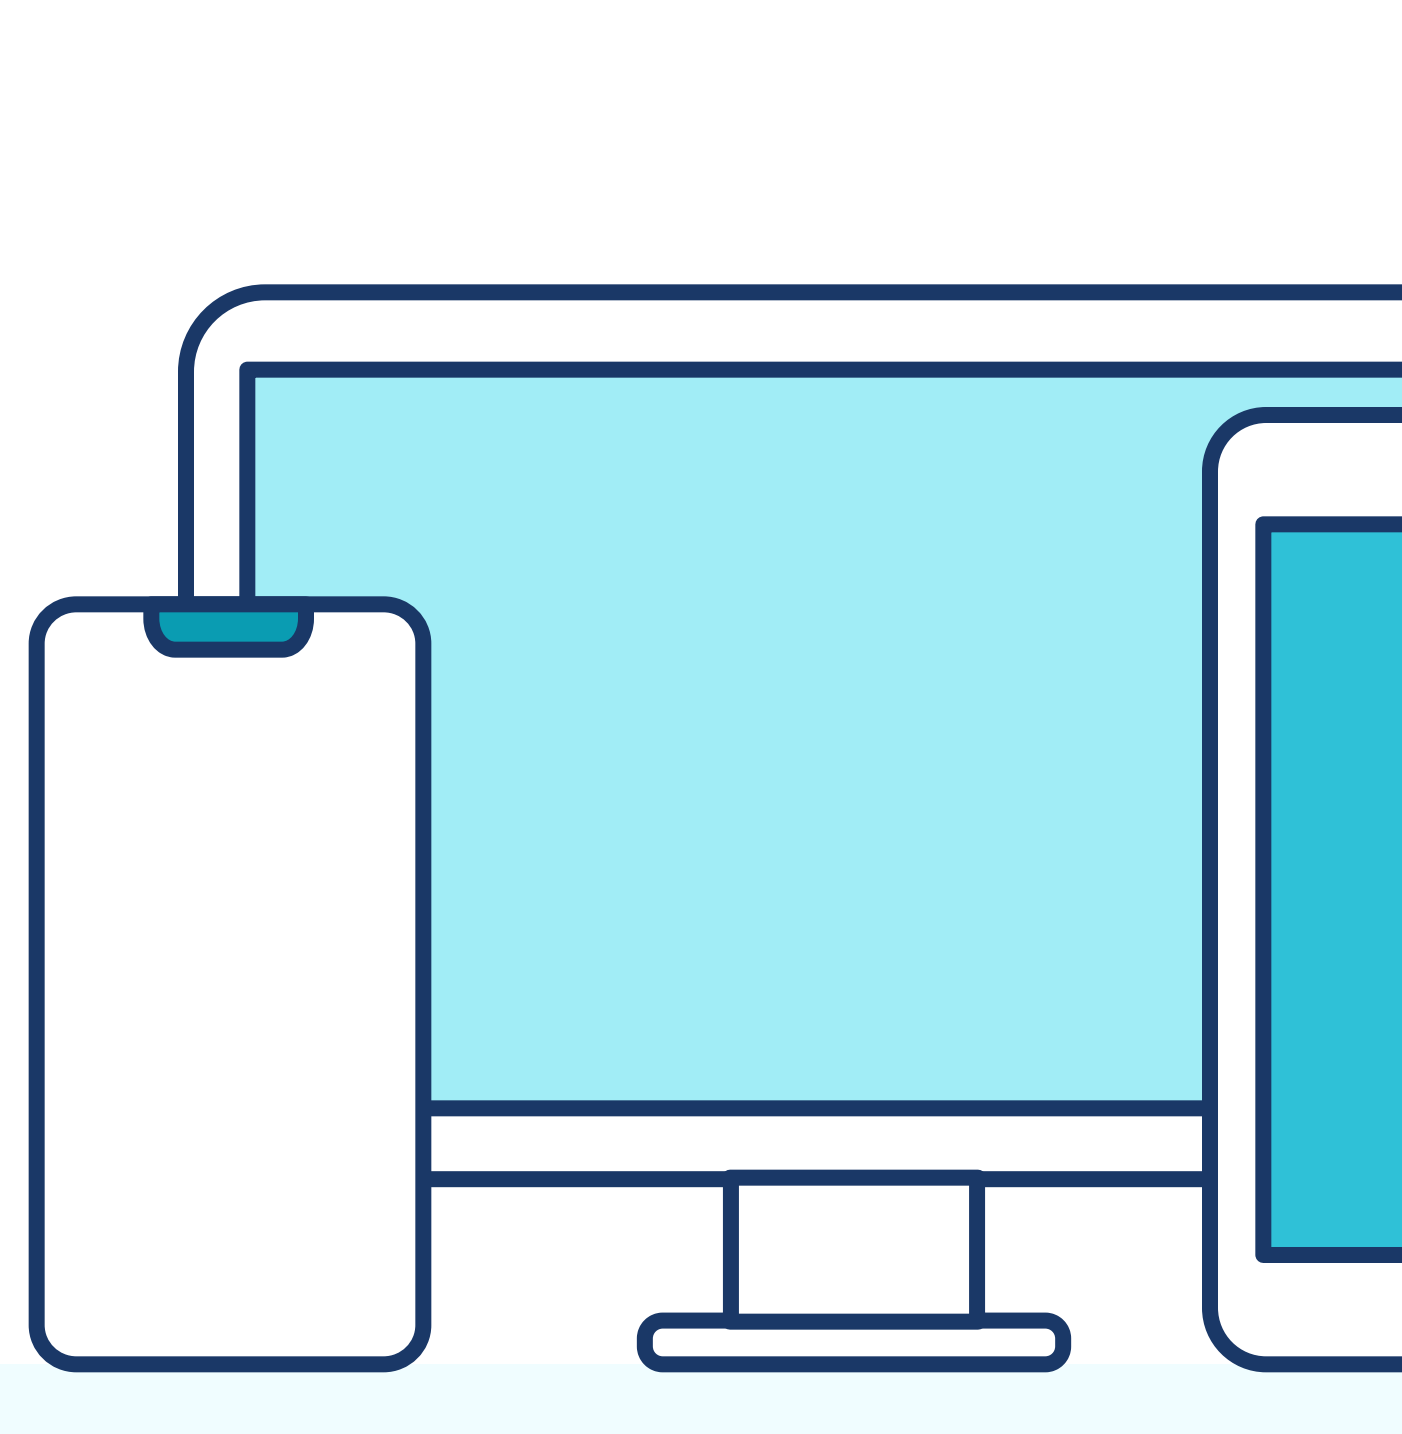

-  **SERVER CONNECTIONS**  
Using Private Tunnel, you can connect to one of the 12 regions worldwide in countries like Sweden and Hong Kong to establish your virtual presence.
-  **WORLDWIDE ACCESS**  
Everyone should have the freedom to surf the internet without being blocked from websites. Have unrestricted access to more information and resources for a better internet experience.
-  **INCREASED PRIVACY**  
Protect your online identity for better privacy and security. By shielding your location and IP address, you protect yourself from cyber criminals and corruption.
-  **TRAVEL PROTECTION**  
Don't want hackers knowing where you are? Whether you're on a business or personal trip, protect your location for better online security.

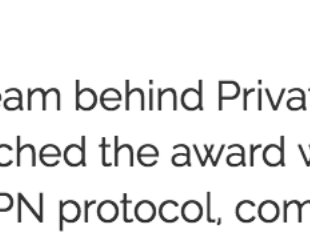

# Start using a proven technology

More than **10,000 businesses** rely on OpenVPN's core technology. Private Tunnel services nearly **one thousand businesses**, with more joining every day.

# What people are saying

“ The team behind Private Tunnel enriched the award winning OpenVPN protocol, combining the cutting edge technology with enhanced networking & software. The competency, knowledge and innovation that the creators bring to Private Tunnel is second not even to artificial intelligence. ”

“ Private Tunnel is a solid option with a trustworthy parent company. Private Tunnel is owned by the company who pioneered OpenVPN, which experts extoll as the highest standard for VPN tunnels. ”

“ I usually recommend using the OpenVPN protocol. This should give consumers plenty of reason for optimism, as OpenVPN is the most secure VPN protocol out there. ”
